

T.J.S. ENGINEERING COLLEGE

(Approved by AICTE, Affiliated to Anna University, Chennai & Accredited by NAAC)
An ISO 9001:2015 Certified Institution

7.1.2.1 Alternate sources of energy and energy conservation measures

POLICY DOCUMENT

The Environment and Energy usage Policy of T.J.S Engineering College is to manage energy in such a systematic way so as to minimize its impact on the environment.

The policy implies to explore the renewable energy resources to reduce the burden of the government and to find out alternate resources as solutions to the energy crisis. This environment and energy policy is binding for all the components of the institution and applies to all its stake holders and to the various activities undertaken by the institution.

It will help us to embed efficiency and environmental awareness into our everyday activities, thus helping us to realize our responsibilities and commitment to conservation of natural resources and to limit its usage.

Green Campus Committee is devoted to the cause of environmental awareness, to undertake green initiatives and to conduct green literacy programmes for saving the energy and protecting the environment.

Policies:

- To reduce local air pollution emissions using environment-friendly vehicles, including bicycles and use of pedestrian-friendly roads.
- To install photovoltaic solar panels for the generation of Green energy.
- To install LED bulbs in the whole campus to save energy.

This policy is being communicated to the students and the employees via internal communication channels and the same is made available to all the stakeholders in the institutional website. The Environment and Energy Policy, objectives and targets are reviewed on a regular basis by the Green Campus Committee Convener and its members under the guidance of the Principal of the college.
