

PERSPECTIVE AND DEPLOYMENT PLAN

TJSEC is very much devoted in providing value-based education to the students to make them qualified engineers, capable technologists and successful management professionals. This is turn is being carried out by the continuous improvement process. Policies are framed considering the stated quality policy and action plans are framed accordingly. The action plans are implemented and monitored through the IQAC and ISO process. Audits are being conducted internally to check the progress. The institute has a keen perspective plan for development. The aspects considered for inclusion in the plan are given below.

- Uplifting all the departments as postgraduate and research centre's
- Involvement of the departments is consultancy service
- Applying for accreditation from NBA
- Trying to have more interactions with the industries
- Striving to become an institution with potential for excellence
- Encouraging faculty to be involved in R & D activities like research proposals, patents and publications.
